

## K-TECH's ADA ELEVATOR PHONE REPLACEMENT PROGRAM SAVES \$\$\$\$\$!

With more than **20** elevator phone **manufacturers** and **100+** phone **models** manufactured over a **25 year period**, finding the right replacement ADA elevator phone can be a costly and time consuming task. Let K-Tech simplify the process and greatly reduce your costs of replacing emergency phones.

After your mechanic calls, you can spend a lot of time looking through your files; searching the internet; leafing through phone books, catalogs and industry publications; and making several

calls to see if you can identify the existing elevator phone and then locate a current source; **OR, you can call K-Tech at 1-800-993-9399.**

K-Tech's new **PhoneFinder** database cross-references manufacturers and model numbers to comparable K-Tech phone models. Most phones fit right in, without any mechanical field mounting or wire connection modifications.

**Not a clone, a better phone...trade up.** K-Tech will replace other manufacturers' field units with comparable, state-of-the-art K-Tech phone models that meet or exceed the most current ADA and A17 / B44 elevator safety code requirements. K-Tech emergency phones carry US and Canadian communication & safety approvals [FCC, IC; ETL (UL/CSA)]

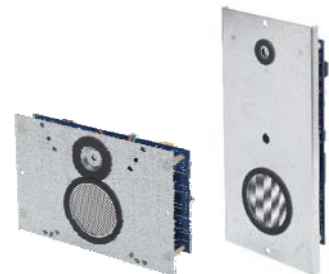

### What makes K-Tech the right choice for all of your ADA elevator phone replacements?

- **Quality**...A proven track record with 25 years experience of in-house designing, manufacturing and sales of quality products for the elevator industry
- **Selection**...A full line of both phone line powered and auxiliary (AC) powered ADA elevator phones. Many mounting styles available
- **Convenience**...A single source supplier who can quickly and accurately identify and replace most any ADA emergency elevator phone
- **Support**...Sales and Technical Support before, during and after your purchase
- **Value**...Competitive prices, field and office labor savings, peace-of-mind

### PUT US TO THE TEST...CALL K-TECH TODAY AT 1-800-993-9399
